Index to Volume 2, Number 1–6.

The Index to volume 1 is composed of three parts: a subject index, an author index, and an advertising index.

Issue	Pages
January–February	1–64
March–April	65–128
May–June	129–192
July–August	193–256
September–October	257–320
November–December	321–384

SUBJECT INDEX

AIDS, see **Acquired immunodeficiency syndrome**
AIDS, see also **HIV antibody testing**
ASMT, see **American Society for Medical Technology**
Abbott Vision
Comparison of Four Chemistry Analyzers for Physician Office and Clinic Laboratories (Bills, Jean K., et al.) 1989;2:111.
Abstracts
ASMT 89 Abstracts (American Society for Medical Technology) 1989;2:137.
Acquired immunodeficiency syndrome
Autologous and Directed Donations (Quinley, Eva D.) 1989;2:22.
New Issues in the Field of Diagnostic Parasitology (Garcia, Lynne S.) 1989;2:25.
Slow Progress in AIDS Research (Carrell, Steve) 1989;2:267.
Activated partial thromboplastin times
Differences in Kaolin-Clotting Times and Platelet Counts Resulting from Variations in Specimen Processing (McGlasson, David L., et al.) 1989;2:109.
Adenovirus
Rapid Culture Method for Virus Isolation and Detection (Graft, Dian M., et al.) 1989;2:99.
Administration, see **Management**
Aging, see **Geriatrics**
Allied health professionals
A Unified Voice for Success (Harmening-Pittiglio, Denise) 1989;2:288.
American Society for Medical Technology
ASMT 89 Abstracts (American Society for Medical Technology) 1989;2:137.
ASMT 89 Exhibitors List (American Society for Medical Technology) 1989;2:153.
ASMT 89: The 57th Annual Meeting (American Society for Medical Technology) 1989;2:74.
Annual Report 1988–1989 (ASMT Education & Research Fund, Inc.) 1989;2:274.
Ames Seralyzer
Comparison of Four Chemistry Analyzers for Physician Office and Clinic Laboratories (Bills, Jean K., et al.) 1989;2:111.
Analyzers
Comparison of Four Chemistry Analyzers for Physician Office and Clinic Laboratories (Bills, Jean K., et al.) 1989;2:111.
Annual Reports, see **Reports**
Antibody screening
Resolution of a Positive Antibody Screen and a Positive Direct Antiglobulin Test (Reid, Marion E.) 1989;2:174.
Antisperm antibodies, see **Autoimmune antispermatozoa antibodies**
Antiviral agents
Treatment of HIV Infection with Antiviral Drugs (Allain, Jean-Pierre) 1989;2:304.
Autoimmune antispermatozoa antibodies
Autoimmune Antispermatozoa Antibodies in Men: Clinical Detection and Role in Infertility (Cearlock, Dianne M.) 1989;2:165.
Autologous donations
Autologous and Directed Donations (Quinley, Eva D.) 1989;2:22.

Biosensors
Biosensors and Diagnostic Testing: Enzyme Electrodes (Miller, Sharon M., et al.) 1989;2:169.
Biotechnology
New Wave Vaccines (Araneo, Barbara A., et al.) 1989;2:160.
Blood banks, see **Immunohematology**
Blood levels
Quality Assurance for Therapeutic Drug Monitoring Based in the Clinical Laboratory (Ward, Kory M., et al.) 1989;2:37.
Burns
Quantitative Alterations in Lymphocyte Subpopulations in Burn Patients (Overman, Jacqueline A., et al.) 1989;2:52.
Business
Update on Women in Business (Day, Carmel Marti) 1989;2:262.

Cancers, see **Malignancies**
Cardiovascular disease
A Model Cholesterol Screening and Education Project (Shaikh, Abdul Hamid) 1989;2:365.
Cholesterol Screening: Struggling to Come of Age (Starrs, Clare) 1989;2:71.
Partners in Cholesterol Screening: The Colorado Approach (Bakes-Martin, Rosemary C., et al.) 1989;2:280.
Practical Considerations for Cholesterol Screening Programs (Ward, Kory M., et al.) 1989;2:90.
Careers
Opportunity and Versatility with a Degree in Clinical Laboratory Science (Solberg, Patricia, et al.) 1989;2:159.
Cell counts
Body-Fluid Cell Counts: A Brief Review (Gittler, Cathy L.) 1989;2:336.
Cell cultures
Factors Influencing Transfer of Bacteria from Coilection and Transport Systems to Culture Media (Perry, Jack L.) 1989;2:340.
Rapid Culture Method for Virus Isolation and Detection (Graft, Dian M., et al.) 1989;2:99.
Viral Cultures: A Vital Role in the Diagnostic Virology Laboratory (Colmer, Jane) 1989;2:91.
Centrifuges
Differences in Kaolin-Clotting Times and Platelet Counts Resulting from Variations in Specimen Processing (McGlasson, David L., et al.) 1989;2:109.
Chemistry
A Model Cholesterol Screening and Education Project (Shaikh, Abdul Hamid) 1989;2:365.
Autoimmune Antispermatozoa Antibodies in Men: Clinical Detection and Role in Infertility (Cearlock, Dianne M.) 1989;2:165.
Biochemical Assessment of Glycemic Control (Ward, Kory M.) 1989;2:334.
Biosensors and Diagnostic Testing: Enzyme Electrodes (Miller, Sharon M., et al.) 1989;2:169.
Changes in Endocrine Function with Aging (Miller, Sharon M.) 1989;2:19.
Cholesterol Screening: Struggling to Come of Age (Starrs, Clare) 1989;2:71.
Comparison of Four Chemistry Analyzers for Physician Office and Clinic Laboratories (Bills, Jean K., et al.) 1989;2:111.
Evaluation of Sigma Diagnostics' Uric Acid Reagent (Nielsen, Leonard G., et al.) 1989;2:5.
Fructosamine: Possibilities and Perils (Koch, David D.) 1989;2:87.
Internal and External Quality Control: One Aspect of Quality Assurance for Cholesterol Measurements (Naito, Herbert K.) 1989;2:343.
Microalbuminuria: Clinical Laboratory Aspects (Ward, Kory M.) 1989;2:212.
Partners in Cholesterol Screening: The Colorado Approach (Bakes-Martin, Rosemary C., et al.) 1989;2:280.
Practical Considerations for Cholesterol Screening Programs (Ward, Kory M., et al.) 1989;2:90.
Quality Assurance of Body Fluid Chemical Analysis (Campbell, Tom E., et al.) 1989;2:349.
Quality Control Based on Test Purpose and Biologic Variability (Bruce, A. Wayne) 1989;2:158.
Statistical Estimation of Sensitivity in Immunochemical Assays (Lee, Chul) 1989;2:307.
Cholesterol
A Model Cholesterol Screening and Education Project (Shaikh, Abdul Hamid) 1989;2:365.
Cholesterol Screening: Struggling to Come of Age (Starrs, Clare) 1989;2:71.
Internal and External Quality Control: One Aspect of Quality Assurance for Cholesterol Measurements (Naito, Herbert K.) 1989;2:343.
Partners in Cholesterol Screening: The Colorado Approach (Bakes-Martin, Rosemary C., et al.) 1989;2:280.
Practical Considerations for Cholesterol Screening Programs (Ward, Kory M., et al.) 1989;2:90.
The Growth of Home Testing: Technology Rises to the Occasion. (Starrs, Clare) 1989;2:330.

Olympus AU5000 series systems.

• **Beckman Instruments, Inc.** have designed a number of centrifuge accessories to provide added protection from aerosols and infectious materials. The product line includes Aerosolve canisters and Aeroseal covers for use with Beckman centrifuges and a unique bowl rotor for the Microfuge 12 microcentrifuge. Beckman also recently introduced a dedicated electrolyte system, the Synchron EL-ISE. The new system provides stat/routine electrolyte determinations and can be used as a primary electrolyte system or to compliment a random access profiler (714/773-8763).

• **American Type Culture Collection's Preceptrol** culture line expands for rapid identification, minimum inhibitory concentrations, and susceptibility systems controls. An updated listing of reduced priced biological cultures recommended by manufacturers, the Centers for Disease Control, and the United States Pharmacopeial Convention for various quality control procedures is available from Patrick J. Burke (301/231-5524).

• **Amgen Diagnostics** introduces Clinigen erythropoietin enzyme immunoassay kit as an aid in the diagnosis of anemia and polycythemia. The test kit is ready to use and nonradioactive; it uses a microtiter well system based on recombinant technology that provides same-day results. Contact Ken Chen (800/343-7475 or 805/499-5725, ext. 4071).

• **Becton Dickinson Microbiology Systems** announces that Directigen RSV, the first stat test for the qualitative detection of antigen to respiratory syncytial virus (RSV), is now being offered in a convenient 20-patient determination kit (301/771-0110, ext. 2304).

• **Nikon Inc. Instrument Group** introduced an easy-to-use intracellular ion measurement system that enables advanced study of intracellular calcium and other ions, provides simultaneous data at two wavelengths, and offers both real time data display and automothic data storage (914/565-2803).

• **Technicon Instruments Corporation** developed a new Automated Closed Tube (ACT) sampler for the Technicon H*1 system. The ACT sampler affords the hematology laboratory the time-and-labor-saving benefits of a true walkaway operation, plus the added safety of closed tube sampling (914/333-6628).

• **Diagnostic Products Corporation (DPC)** announced the new AlaTOP screen for atopic allergy that accurately indicates a patient's atopic or nonatopic condition within a matter of hours. DPC also introduced the Milenia Kinetic EIA System, a complete modular line of instrumentation and nonisotopic assays suitable for any size laboratory (213/776-0180).
